

FOR IMMEDIATE RELEASE

Royal Caribbean Group provides business update and reports on first quarter 2021

MIAMI – April 29, 2021 – Royal Caribbean Group (NYSE: RCL) today commented on the business considering the global COVID-19 pandemic and reported financial results for the first quarter of 2021.

Business Update

Since the last business update, the Company has announced new itineraries for this summer for eleven additional ships from the Caribbean and Europe in addition to the four ships already sailing. The initial reaction to these announcements has been positive, highlighting the strong demand for cruising. These cruises are taking place with adjusted passenger capacity and the enhanced health protocols developed with government and health authorities, and guidance from the Healthy Sail Panel.

"We are looking forward to resuming operations out of various ports around the world in the coming months. In addition, we have had very constructive dialogues with the Centers for Disease Control and Prevention (CDC) in recent weeks about resuming cruising in the U.S. in a safe and healthy manner," said Richard D. Fain, Chairman and CEO. "Last night, the CDC notified us of some clarifications and amplifications of their Conditional Sail Order which addressed uncertainties and concerns we had raised. They have dealt with many of these items in a constructive manner that takes into account recent advances in vaccines and medical science. Although this is only part of a very complex process, it encourages us that we now see a pathway to a healthy and achievable return to service, hopefully in time for an Alaskan season."

First Quarter 2021

On March 13, 2020, the Company voluntarily suspended its global cruise operations due to the COVID-19 pandemic and that suspension has been extended for most ships through at least June 30, 2021. More recently, the Company resumed limited cruise operations outside of the U.S. and has announced a series of such overseas itineraries.

The Company reported US GAAP Net Loss for the first quarter of 2021 of \$(1.1) billion or \$(4.66) per share compared to US GAAP Net Loss of \$(1.4) billion or \$(6.91) per share in the prior year. The Company also reported Adjusted Net Loss of \$(1.1) billion or \$(4.44) per share for the first quarter of 2021 compared to Adjusted Net Loss of \$(310.4) million or \$(1.48) per share in the prior year. The Net Loss and Adjusted Net Loss for the quarter are the result of the impact of the COVID-19 pandemic on the business.

The average monthly cash burn rate for the first quarter of 2021 was approximately \$300 million. This is slightly higher than the previously announced range driven mainly by fleetwide restart expenses and timing.

Update on Liquidity Actions and Ongoing Uses of Cash

Since the suspension of operations in March 2020, the Company has raised approximately \$12.3 billion through a combination of bond issuances, common stock offerings and other loan facilities. Given the current environment, the Company continues to bolster its liquidity. Among its latest actions executed during the first quarter of 2021, the Company highlighted the following:

- Completed a \$1.5 billion equity offering at a price of \$91 per share;
- Issued \$1.5 billion of 5.5% senior unsecured notes due 2028, the proceeds of which have been and will be used to repay principal on debt maturing or required to be paid in 2021 and 2022;
- Amended its \$1.0 billion term loan due April 2022 to extend the maturity date for consenting lenders by 18 months and, in connection therewith, repaid \$138.5 million of principal on the facility using proceeds from the senior notes;
- Amended its \$1.55 billion revolving credit facility due October 2022 to extend the maturity date for consenting lenders by 18 months and, in connection therewith, repaid \$277.6 million of

principal on the facility using proceeds from the senior notes (with a corresponding reduction in commitments);

- Completed the balance of the previously announced amendments to its export credit facilities, which in total defer \$1.15 billion of principal amortization due before April 2022 and waive financial covenants through at least the end of the third quarter of 2022 and;
- Amended the majority of its commercial bank facilities and credit card agreements to waive financial covenants through at least the end of the third quarter of 2022.

As the Company transitions back to operations, it expects to incur incremental spend related to bringing ships back to operating status, returning crew members to ships and implementing enhanced health and safety protocols. The decision to return each vessel takes into account many variables, including deployment opportunities, commercial potential, cost of operations and cash flow. Given the fluidity of return to service decisions and costs related to the ramp-up, the Company cannot reasonably estimate a monthly average cash burn rate related to such ramp-up. Monthly average cash burn rate for ships that are in lay-up status is expected to remain consistent with previous expectations.

Liquidity and Financing Arrangements

As of March 31, 2021, the Company had liquidity of approximately \$5.8 billion, including \$5.1 billion in cash and cash equivalents and a \$0.7 billion commitment for a 364-day facility.

As of March 31, 2021, the scheduled debt maturities for the remainder of 2021 and 2022, are \$0.2 billion and \$2.2 billion, respectively.

Net interest expense for the second quarter of 2021 is expected to be approximately \$270 million.

"We are prepared and eager for the flywheel to start turning again," said Jason T. Liberty, executive vice president and CFO. "Moreover, we are optimistic that with the gradual resumption of cruise operations, our cash flow from operations will sequentially improve, driven by an increase in the inflow of customer deposits. We feel optimistic about our future and are thrilled to see more and more guests around the globe enjoying incredible vacations onboard our ships."

Capital Expenditures and Capacity Updates

Based upon current ship orders and delivery schedules, the projected capital expenditures for the remainder of 2021 are \$1.1 billion. During the first quarter of 2021, the Company introduced Odyssey of the Seas to the Royal Caribbean International fleet and now expects the delivery of Silver Dawn to the Silversea fleet during the fourth quarter.

Depreciation and amortization expenses for the second quarter of 2021 are expected to be in the range of \$320 million to 325 million.

As it relates to 2022, the Company has two ship deliveries scheduled, both with committed financing: Wonder of the Seas and Celebrity Beyond. Excluding the newbuild deliveries, the capital expenditures for 2022 will depend on the Company's schedule to return to service.

Fuel Expense

As of March 31, 2021, the Company had hedged approximately 43%, 25% and 5% of its total projected metric tons of fuel consumption for the remainder of 2021, and for all of 2022 and 2023, respectively. The current suspension of cruise operations due to the COVID-19 pandemic resulted in reductions to the forecasted fuel consumption. As of March 31, 2021, the Company had outstanding fuel swaps of 172,400 and 14,650 metric tons maturing in 2021 and 2022, respectively, that no longer hedge the forecasted fuel consumption. For the remainder of 2021, and for all of 2022 and 2023, the annual average cost per metric ton of the fuel swap portfolio is approximately \$446, \$514, and \$580, respectively.

Update on Bookings

Booking activity for the second half of 2021 is aligned with the Company's anticipated resumption of cruising. Pricing on these bookings is higher than 2019 both including and excluding the dilutive impact of future cruise credits (FCCs).

Cumulative advance bookings for the first half of 2022 are within historical ranges and at higher prices when compared to 2019. This was achieved with minimal sales and marketing spend which the Company believes highlights a strong long-term demand for cruising.

Since the last business update, approximately 75% of bookings made for 2021 are new and 25% are due to the redemption of FCCs and the "Lift & Shift" program. The Company continues to provide guests on suspended sailings with the option to request a refund, to receive an FCC, or to "lift & shift" their booking to the following year.

As of March 31, 2021, the Company had approximately \$1.8 billion in customer deposits, in line with its December 31, 2020 balance. Approximately 45% of the customer deposit balance is related to FCCs.

Since the suspension of guest operations on March 13, 2020, approximately 50% of the guests booked on cancelled sailings have requested cash refunds.

2021 Outlook

The Company's operation is still heavily impacted by the consequences of the COVID-19 pandemic. Therefore, the Company cannot reasonably estimate its financial or operational results. Notwithstanding the foregoing, the Company expects to incur a net loss on both a US GAAP and adjusted basis for its second quarter and the 2021 fiscal year, the extent of which will depend on many factors including the timing and extent of the return to service.

CONFERENCE CALL SCHEDULED

The Company has scheduled a conference call at 9:00 a.m. Eastern Time today. This call can be heard, either live or on a delayed basis, on the Company's investor relations website at <u>www.rclinvestor.com</u>.

Definitions

Selected Operational and Financial Metrics

Adjusted Loss per Share ("Adjusted EPS")

Represents Adjusted Net Loss attributable to Royal Caribbean Cruises Ltd. divided by weighted average shares outstanding or by diluted weighted average shares outstanding, as applicable. We believe that this non-GAAP measure is meaningful when assessing our performance on a comparative basis.

Adjusted Net Loss

Adjusted Net Loss represents net loss less net income attributable to noncontrolling interest excluding certain items that we believe adjusting for is meaningful when assessing our performance on a comparative basis. For the periods presented, these items included (i) loss on the extinguishment of debt; (ii) the amortization of non-cash debt discount on our convertible notes; (iii) the estimated cash refund expected to be paid to Pullmantur guests and other expenses incurred as part of the Pullmantur S.A. reorganization; (iv) impairment and credit losses recognized in the first quarter of 2020 as a result of the impact of COVID-19 and, in 2021, recovery of credit losses recognized during 2020; (v) equity investment asset impairments; (vi) net insurance recoveries

related to the collapse of the drydock structure at the Grand Bahama Shipyard involving Oasis of the Seas; (vii) restructuring charges incurred in relation to the reduction in our U.S. workforce and other initiative expenses; (viii) the change in the fair value in the Silversea Cruises contingent consideration and the amortization of the Silversea Cruises intangible assets resulting from the our acquisition of a 66.7% interest in Silversea Cruises in 2018; (ix) the noncontrolling interest adjustment to exclude the impact of the contractual accretion requirements associated with the put option held by Heritage Cruise Holding Ltd.'s (previously known as Silversea Cruises Group Ltd.) noncontrolling interest in Silversea Cruises; and (x) the net gain recognized in the first quarter of 2021 in relation to the sale of the Azamara brand.

Available Passenger Cruise Days ("APCD")

Available Passenger Cruise Days is our measurement of capacity and represents double occupancy per cabin multiplied by the number of cruise days for the period, which excludes canceled cruise days and drydock days. We use this measure to perform capacity and rate analysis to identify our main non-capacity drivers that cause our cruise revenue and expenses to vary.

Occupancy

Occupancy, in accordance with cruise vacation industry practice, is calculated by dividing Passenger Cruise Days by APCD. A percentage in excess of 100% indicates that three or more passengers occupied some cabins.

Passenger Cruise Days

Passenger Cruise Days represent the number of passengers carried for the period multiplied by the number of days of their respective cruises.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements in this press release relating to, among other things, our future performance estimates, forecasts and projections constitute forward-looking statements under the Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to: statements regarding revenues, costs and financial results for 2021 and beyond. Words such as "anticipate," "believe," "could," "driving," "estimate," "expect,"

"goal," "intend," "may," "plan," "project," "seek," "should," "will," "would," "considering", and similar expressions are intended to help identify forward-looking statements. Forward-looking statements reflect management's current expectations, are based on judgments, are inherently uncertain and are subject to risks, uncertainties and other factors, which could cause our actual results, performance or achievements to differ materially from the future results, performance or achievements expressed or implied in those forward-looking statements. Examples of these risks, uncertainties and other factors include, but are not limited to the following: the impact of the global incidence and spread of COVID-19, which has led to the temporary suspension of our operations and has had and will continue to have a material adverse impact on our business, liquidity and results of operations, or other contagious illnesses on economic conditions and the travel industry in general and the financial position and operating results of our Company in particular, such as: the current and potential additional governmental and self-imposed travel restrictions, the current and potential extension of the suspension of cruises and new additional suspensions, guest cancellations; our ability to obtain sufficient financing, capital or revenues to satisfy liquidity needs, capital expenditures, debt repayments and other financing needs; the effectiveness of the actions we have taken to improve and address our liquidity needs; the impact of the economic and geopolitical environment on key aspects of our business, such as the demand for cruises, passenger spending, and operating costs; incidents or adverse publicity concerning our ships, port facilities, land destinations and/or passengers or the cruise vacation industry in general; our ability to accurately estimate our monthly cash burn rate during the suspension of our operations; concerns over safety, health and security of guests and crew; any protocols we adopt across our fleet relating to COVID-19, such as those recommended by the Healthy Sail Panel, may be costly and less effective than we expect in reducing the risk of infection and spread of COVID-19 on our cruise ships; further impairments of our goodwill, longlived assets, equity investments and notes receivable; an inability to source our crew or our provisions and supplies from certain places; the incurrence of COVID-19 and other contagious diseases on our ships and an increase in concern about the risk of illness on our ships or when traveling to or from our ships, all of which reduces demand; unavailability of ports of call; growing anti-tourism sentiments and environmental concerns; changes in US foreign travel policy; the uncertainties of conducting business internationally and expanding into new markets and new ventures; our ability to recruit, develop and retain high quality personnel; changes in operating and financing costs; our indebtedness, any additional indebtedness we may incur and restrictions in the agreements governing our indebtedness that limit our flexibility in operating our business, including the significant portion of assets that are collateral under these agreements; the impact of foreign currency exchange rates, interest rate and fuel price fluctuations; the settlement of conversions of our convertible notes, if any, in shares of our common stock or a combination of cash and shares of our common stock, which may result in substantial dilution for our existing shareholders; our expectation that we will not declare or pay dividends on our common stock for the near future; vacation industry competition and changes in industry capacity and overcapacity; the risks and costs related to cyber security attacks, data breaches, protecting our systems and maintaining integrity and security of our business information, as well as personal data of our guests,

employees and others; the impact of new or changing legislation and regulations or governmental orders on our business; pending or threatened litigation, investigations and enforcement actions; the effects of weather, natural disasters and seasonality on our business; emergency ship repairs, including the related lost revenue; the impact of issues at shipyards, including ship delivery delays, ship cancellations or ship construction cost increases; shipyard unavailability; the unavailability or cost of air service; and uncertainties of a foreign legal system as we are not incorporated in the United States.

In addition, many of these risks and uncertainties are currently heightened by and will continue to be heightened by, or in the future may be heightened by, the COVID-19 pandemic. It is not possible to predict or identify all such risks.

More information about factors that could affect our operating results is included under the caption "Risk Factors" in our most recent annual report on Form 10-K, as well as our other filings with the SEC, and the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our most recent annual report on Form 10-K, copies of which may be obtained by visiting our Investor Relations website at www.rclinvestor.com or the SEC's website at www.sec.gov.
